25th May 2017

To the children of The Friars Primary School,

We are the Key Stage 2 members of our School Council and we have met today because we were so sad to hear about the terrible thing that happened at the Manchester Arena this week. We looked on the internet and chose a primary school in Manchester to write to because we wanted to do something small to help other children like us at this horrible time.

Although we do not know you and we are a long way from your city and your school, we are pupils and children just like you. We wanted to write a letter to you on behalf of all the 420 children here at The Dell Primary School to show you that there are many, many more good, kind and caring people in the world and in our country than there are bad people. We understand that you might not feel like that right now but we hope that soon you will feel that way.

We think that it must be very hard for you at the moment and quite scary to go to school and try to live a normal life like you did before. But we hope that you take a little bit of strength from knowing that children like you are thinking about you and sending you love and support from far away.

We believe that good will always beat bad and that love will always beat hate.

When you are worried or scared we hope you will get a little bit of comfort from knowing that there are children a long way from Manchester thinking of you and wishing you well and caring about you.

On behalf of all the children and staff at The Dell Primary School in Chepstow, Wales.
