

Termly News

Autumn Edition

By The Dell School Council

On Friday 13th September, every child, from Year 1 to Year 5 voted for The pupil they wanted to be their school council representative.

This is our awesome team:

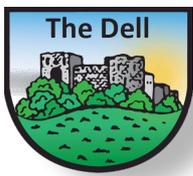

Awesome Ambassadors:
These are our Ambassadors. They have been voted for by the teachers.

Voters queuing patiently to cast their votes on who they would like to shout their voice!

What we will be working on this year:

Everything we do will be for the positive impact of us, our school, community, country and our world!

We will be looking at the United Nations **17 Sustainable Development** Goals. Look out for the little logos in the corner of each picture or text to tell you which ones we have met this term.

The United Nations Team:

We have also welcomed three new members to our team.

They have 3 main missions:

- To inform other pupils in their school about the Commissioner and her powers
- To make sure other pupils know about about children's rights under the UNCRC.
- To do special missions for the Commissioner in their school – these inform the work of our office and have a real impact on our work and on children's rights in Wales

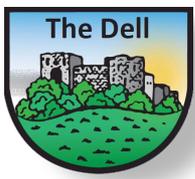

Children in Need:

This term we wore spotty clothing, bought pudsey themed colouring sheets and took part in the Big Move with Joe Wickes. In total, we raised A LOT!!!

Thank you to everyone who helped, donated and bought items to help those children less fortunate than ourselves. :)

Chepstow Mencap:

We met with Chepstow Mencap to discuss how we could help raise funds for their new headquarters. We have agreed to fill jam jars across the school and we are looking at doing lots more soon so we can raise more money for them.

The Scrap Store!

You wanted more play equipment outside so we went to the scrap store to see what we could find.

Remember, if you don't ask we can't help!

We are listening!

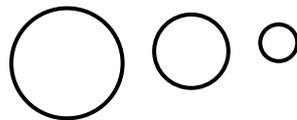

You wanted timers for the bars so we listened.

You wanted more games on the FP playground so we listened. We are working with playmaker to make it happen

You were concerned about the 'exploding trays' so we did research. Each School Councillor tallied how many times a tray fell over a week and the total across the school was less than 20!
